360° Feedback Report

Feedback Report for Homer Simpson 1. Middle Managers Report Generated 27 October 2009

Understanding your report

Your feedback report has been generated using information gathered both from yourself and from the people who have provided feedback (the respondents).

The information has been collated and presented in 3 main sections:

- 1. The competency summary shows your scores at a glance under each of the main competency headings showing how your self scores match up against the scores that your respondents gave.
- 2. The competency detail section takes each competency in turn and analyses it in terms of your scores against each of the individual behavioural questions.
- 3. The free text comments that you and your respondents gave in response to the qualitative questions in the questionnaire.

In the numerical sections of the report the results have been arranged so that the highest scoring items (based on feedback) are at the top and the lowest scoring items are at the bottom. This is to help you identify highlights and lowlights easily. If your respondents were assigned to different relationship categories then you will find that the individual scores they gave have been colour coded according to the Relationship Key on this page. Your report is designed to be read in conjunction with the workbook that has been provided along with your 360 feedback and can be downloaded from the website.

Relationship key:

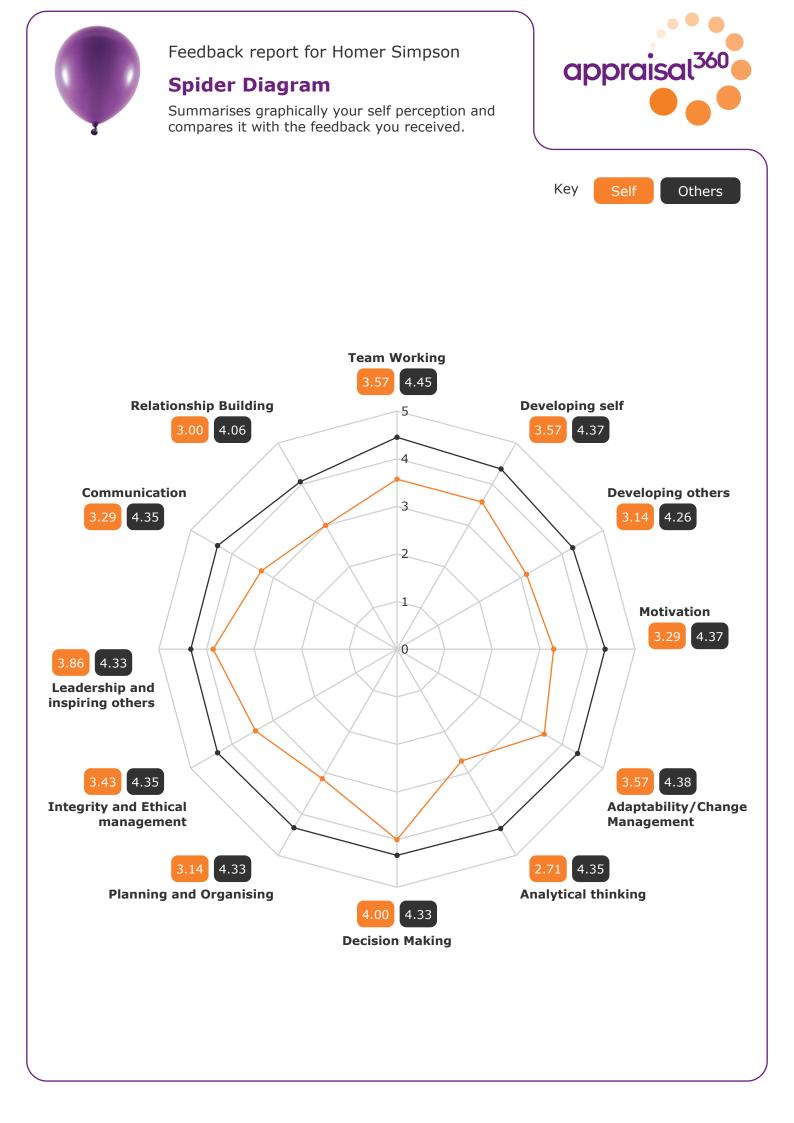

The scores in the details section of your report have been colour coded to indicate the relationship category of the respondent as follows:

Scoring System:

You and your respondents were asked to provide feedback to a number of multiple choice questions using a five point scale. The chart below shows the scale as per the questionnaires. The important thing to remember is that a higher score is intended to be more positive. If a question has been answered as 'Don't Know' then that score will have been ignored in any calculations of averages or rankings in your report.
